Manufacturer: **Polycom**

## Remarkable Voice Quality Wireless Freedom

Now there's a conference phone without cords that gives you the freedom to conference anywhere team collaboration is important – even in rooms where there are no phone lines. With superior voice quality to the award winning SoundStation, proven 1.9 GHz wireless technology, added security of voice encryption, up to 24 hours of talk time, and the ability to dial through a mobile phone, the SoundStation2W is the new standard for everyday conferencing.

SoundStation2W delivers voice quality that is twice as loud and provides twice the microphone sensitivity as the original SoundStation enabling clearer natural, two-way conversations. Our secure and proven 1.9 GHz platform provides simple and robust wireless capability with any analogue phone line. With reliable 150 foot wireless roaming from the base station, wireless frequency hopping to avoid interference, and a long lasting Lithium-ion battery, the SoundStation2W truly meets today's needs for excellent voice quality and usage flexibility.

SoundStation2W is also the first phone that combines mobile phone convenience and Polycom voice quality. The headset connector provides users the ability to instantly connect their mobile phone to the conference phone. This mode gives users the option to dial directly through a mobile phone or transfer between handset and conference phone mode during a conversation. Because the call is dialled through the mobile network, there is no need for an analogue phone line – providing true portability and wireless freedom!

The SoundStation2W – designed to be used where you need it, because the conference room isn't always enough!

[The new standard for anywhere conferencing to access the power of Polycom unified collaborative communications solutions](#)

With the greatest breadth and depth of integrated video, voice, and Web solutions, only Polycom delivers the ultimate communications experience. Our market-leading conferencing and collaboration technologies, supported by world-class service, enable people and organisations to maximise their effectiveness and productivity. Add to that the most experience and proven best-practices in the industry, and it's clear why Polycom has become the smart choice for organisations seeking a strategic advantage in a real-time world.

## Benefits

### Acoustic Clarity Technology

Allows simultaneous natural conversation – the industry's best full duplex

### Security

Proven and secure wireless 1.9GHz DECT Technology with voice encryption for added security

### Freedom

Conference without cords up to 150 feet from the base station

### Long lasting battery

Charge once a week and go! Up to 24 hr. talk time lithium-ion battery

### Unparalleled flexibility

Mobile phone connector\* for a new mode of conferencing when there are no phone lines available

### Easy to use and install

Works like other Polycom conference phones, compatible with any analogue line

### Investment protection

Software upgradeable through mini-USB port

*\*SoundStation2W uses a cable that connects to a standard 2.5mm headset connector. If your mobile phone model does not support this type of connection you will need an adapter (not included).*

*Not all mobile phone models support the SoundStation2W mobile phone connector.*

*Conferences using some mobile phone models may experience diminished audio quality or other functionality. For a list of mobile phones that are known to work well with the SoundStation2W, please consult [www.polycomasia.com](http://www.polycomasia.com).*

## Features and Benefits

With the SoundStation2W, Polycom sets the new standard for everyday business conferencing. With truly remarkable voice quality, a large graphical display, smart technology, such as Dynamic Noise reduction, and traditional telephone features, SoundStation2W improves the performance and increases the productivity of everyday conferencing.

### Remarkable Voice Quality. The New Standard in Everyday Conferencing.

#### Wireless Capability

- Wireless protocol – 1.9 GHz DECT
- Signal range – 150 feet from base station
- Dual diversity antennas
- Battery – Rechargeable Lithium-Ion battery pack
- Talk time – 12 hrs. (Basic Version), 24 hrs. (EX Version)
- Standby time – Up to 80 hrs. (Basic Version), 160 hrs. (EX Version)
- Charge time – 4 hrs. (Basic Version), 8 hrs. (EX version)
- Signal strength and battery status continuously displayed on LCD
- Portable console charger

#### Polycom Acoustic Clarity technology

- Allows natural, interactive two-way conversations (full duplex). Users don't have to wait for speakers on the far end to stop talking before breaking into a conversation

#### Remarkable Voice Quality

- Users can speak in a normal voice up to ten feet away from the console
- More productive calls – no need to repeat yourself
- Three cardioid microphones provide 360-degree coverage so that everybody in the room can be heard clearly

#### Dynamic Noise Reduction (DNR)

- Automatically reduces room background noise – from fans, projectors, heating and air conditioning – for clearer sound and more efficient conferencing

#### Intelligent microphone mixing

- Automatically selects the microphone closest to the person speaking, eliminating extraneous background noises

#### Microphone expandability (EX version only)

- Extension microphones increase coverage for larger size rooms

#### Backlit graphical display

- Convenient, easy access to important call information – phone number, number called, duration/progress of call and Caller ID
- Familiar, easy to use telephony features – phone book, conferencing, mute, and hold – eliminate user confusion and need for training

#### Auxiliary Input/Output Jacks

- 2.5mm jack: Provides connection to other communication devices, such as a mobile phone, for hands-free conferencing
- RCA jack: Allows connections to other peripherals, such as an audio recorder

#### Easy to use and install

- No training required, connects into any analogue phone jack

#### Security

- 64 bit voice encryption between console and base station
- Aux out record feature activated via console Keypad

#### Audio

- Polycom Acoustic Clarity full duplex – IEEE 1329 Type 1 @ -2dB idle limit
- Up to 10 ft. microphone pick-up range
- Gated microphones with intelligent microphone mixing
- Dynamic noise reduction
